The all-in-one solution to protect your products

Small, light and space-saving, the **Forstag** will protect your products in a discreet and elegant way. A smart slot allows to hang the bra straps, the bag arch, cables etc without damaging the product.

Hygiene and Security: Retractable pin

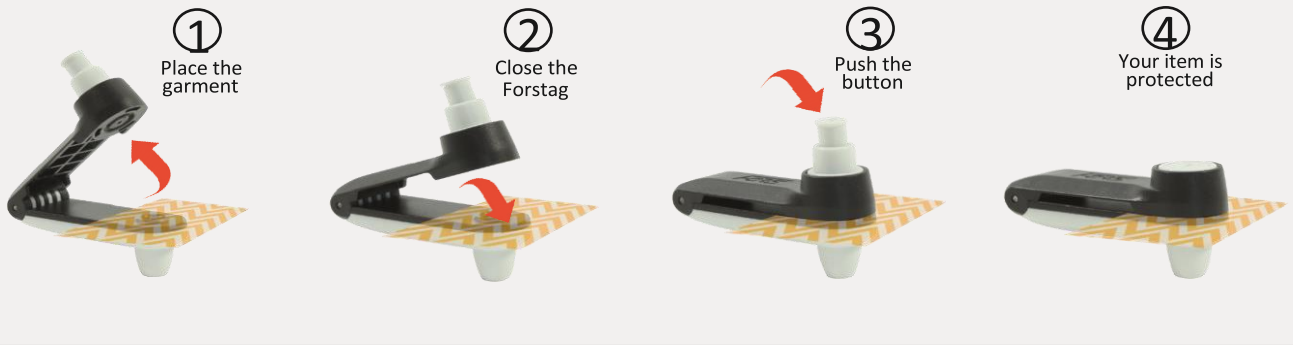

SECURITY

We are all aware that handling anti-theft pin represents a real problem of security and hygiene for the staff. When the Forstag is released, its pin is invisible, this innovation guarantees to the staff to handle it in a total security. To lock the Forstag, you just have to push the button.

Use of the Forstag

Quick locking

Released immediately

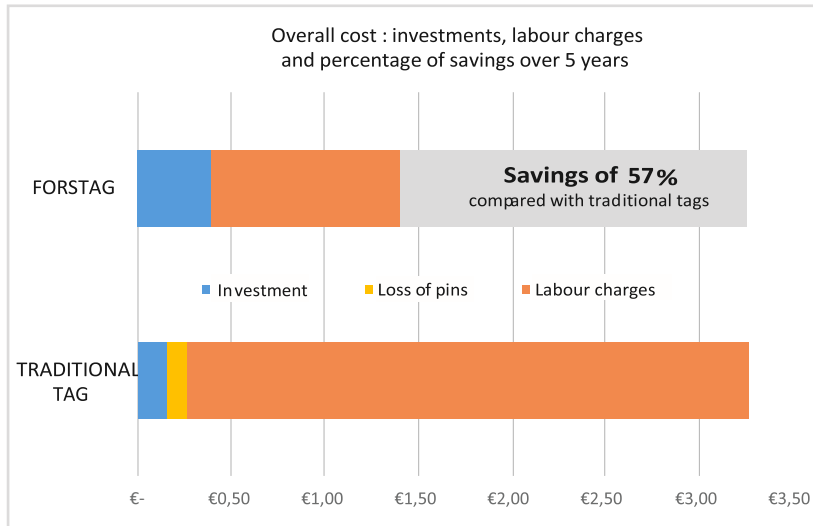

Just put the Forstag on the opener, it's immediately released.

An economical solution

Estimate of the mean use-time
(Set up + Removing + collection)

TAG + PIN	TIME	FORSTAG
2 sec	Time to collect	1 sec
6 sec	Time to install	1,5 sec
4 sec	Time to remove	1,5 sec

Hypothesis : On a base of 10 uses of the Tag per year and loss of a pin per year and per traditional tag.

OPERATING WINNINGS

Thanks to its easy use, the FORSTAG range offers to the staff a real security, therefore a better efficiency during their daily working. There is a real comfort in the boring and repetitive tasks. The result drives to a real productivity.
